

# 3A: Personal & Contextual

Leads with the customer's name and a savings insight. The hierarchy is: who you are → what you have → what you've saved → where you're headed → what happened.

## What's New in 3A

- 1 Named Greeting + Tier Badge:** "Hi, Priya" with inline Bronze badge and member-since date. Personalizes the page immediately and tells customers how long they've been loyal.
- 2 Savings Insight Card:** A green-tinted card that says "You've saved ₹1,240 across 8 orders." Gives customers a tangible reason to feel good about the program — total lifetime value, not just current balance.
- 3 Milestone Nudge:** Below tier progress, a subtle callout explains the concrete benefit of the next tier ("1.5x cashback"). Turns an abstract progress bar into a motivating goal.
- 4 Information Hierarchy:** Identity → Balance → Savings insight → Tier goal → Activity. The flow is: who you are, what you have, what you've gained, where you're headed, what happened recently.
